IMPORTANT NOTES

WHEN AND WHERE TO FILE

Generally, Form 502X must be filed within three years from the date the original return was due or filed. The following exceptions apply.

- A claim filed within three years after the date of filing the return is limited to the amount paid within the three years (including extensions) before you filed the claim.
- A claim filed after three years, but within two years from the time the tax was paid is limited to the amount paid within the two years immediately before filing the claim.
- A claim for refund based on a federal net operating loss carryback must be filed within 3 years after the due date (including extensions) of the return for the tax year of the net operating loss. For tax years beginning after August 5, 1997, the general net operating loss carryback period is reduced to 2 years. The carryback/carryforward period must be the same that was used for federal purposes.
- A claim for refund resulting from a credit for taxes paid to another state must be filed within one year of the date of the notification by the other state that income tax is due.
- If the Internal Revenue Service issues a final determination of adjustments that would result in a decrease to Maryland taxable income, file Form 502X within one year after the final adjustment report or the final court decision if appealed.
- If the Internal Revenue Service issued a final determination of adjustments that would result in an increase to Maryland taxable income, file Form 502X within ninety days after the final determination.

Do not file an amended return until sufficient time has passed to allow the original return to be processed. For current year returns, allow at least six weeks. Please note that no refund for less than \$1.00 will be issued.

The amended return must be filed with the Comptroller of Maryland, Revenue Administration Division, Annapolis, Maryland 21411-0001.

PROTECTIVE CLAIMS

A protective claim is a claim for a specific amount of refund filed on an amended return with a request that the Comptroller delay acting on the refund request. The claim for refund may not be based on a federal audit. The delay requested must be due to a pending decision by a state or federal court which will affect the outcome of the refund, or for reasonable cause. The protective claim must be filed in accordance with the limitations outlined in the section WHEN AND WHERE TO FILE. The Comptroller may accept or reject a protective claim. If rejected, the taxpayer will be informed of a right to a hearing. We cannot accept a protective claim unless an original return has been filed.

PENALTIES

There are severe penalties for failing to file a tax return, failing to pay any tax when due, filing false or fraudulent returns or making a false certification. The penalties include criminal fines, imprisonment and a penalty on your taxes. In addition, interest is charged on amounts not paid.

To collect unpaid taxes, the Comptroller is directed to enter liens against the salary, wages or property of delinquent taxpayers.

PRIVACY ACT INFORMATION

The Revenue Administration Division requests information on tax returns to administer the income tax laws of Maryland, including

determination and collection of correct taxes. If you fail to provide all or part of the requested information, the exemptions, exclusions, credits, deductions or adjustments may be disallowed and you may owe more tax. In addition, the law provides penalties for failing to supply information required by law or regulations.

You may look at any records held by the Revenue Administration Division which contain personal information about you. You may inspect such records, and you have certain rights to amend or correct them.

As authorized by law, information furnished to the Revenue Administration Division may be given to the United States Internal Revenue Service, a proper official of any state that exchanges tax information with Maryland and to an officer of this state having a right to the information in that officer's official capacity. The information may be obtained with a proper legislative or judicial order.

USE OF FEDERAL RETURN

Most changes to your federal return will result in changes on your Maryland return and you will need the information from your federal amendment to complete your Maryland amended return. Therefore, complete your federal return first. Maryland law requires that your income and deductions be entered on your Maryland return exactly as they were reported on your federal return. However, all items reported on your Maryland return are subject to verification, audit and revision by the Maryland State Comptroller's Office.

If you are amending your federal return, attach a photocopy of the federal Form 1040X and any revised schedules to your Maryland Form 502X. If your tax has been increased by the Internal Revenue Service, you must report this increase to the Maryland Revenue Administration Division within ninety (90) days from the final IRS determination.

6 EARNED INCOME CREDIT, POVERTY LEVEL CREDIT, CREDITS FOR INDIVIDUALS AND BUSINESS TAX CREDITS. Enter each credit being claimed in the appropriate box on line 10a.

Beginning with tax year 1987, you may claim a credit equal to one-half of your federal earned income credit on line 10a. If you were a part-year resident for any tax year after 1986 and before 1998, you must prorate the earned income credit by the number of months of residence. For tax years 1998 and later, if you were a part-year resident or a nonresident, you must prorate the earned income credit using the Maryland income factor. See Instruction 13.

Beginning with tax year 1998, you may also claim a credit on line 10a equal to 5% of your earned income if your income is less than the

poverty level guidelines. Please refer to the instructions and worksheet in the Maryland tax booklet to compute the allowable credit. If you were a part-year resident or a nonresident in 1998 or later, you must prorate the poverty level credit using the Maryland income factor. See Instruction 13.

Beginning with tax year 1999, personal income tax credits from Form 502CR and business tax credits from Form 500CR should be entered in the appropriate box on line 10a. If these amounts are different from the original return, be sure to attach the completed Form

502CR and/or Form 500CR with appropriate documentation or certifications. If amending a tax year prior to 1999 to claim personal income tax credits and/or business tax credits, see Instruction 9. Do not use line 10a to claim these credits for years prior to 1999.

If the total credits on line 10a are greater than the tax on line 10, enter zero on line 10b. The credits entered on line 10a are nonrefundable. For information concerning refundable credits, see Instruction 9.

7 LOCAL INCOME TAX AND LOCAL CREDITS. For tax years prior to 1992 and 1995 through 1997, multiply the Maryland tax on line 10b by the percentage applicable for the year being amended for the county (or Baltimore City) in which you resided on the last day of that tax year. See the following Local Tax Rate Chart for the appropriate percentage rate. Enter the result on line 11.

Beginning with tax year 1999, a separate calculation of the earned income credit and poverty level credit is required when computing the local income tax. Use the worksheets in the appropriate Maryland tax booklet to compute the local credits and enter the result on line 11a. If you were a part-year resident in tax year 1999 or later, you must prorate the local credits using the Maryland income factor. See Instruction 13.

EXCEPTIONS: For tax years 1992, 1993 and 1994 the law allows only taxable income less than \$100,000 (\$150,000 for taxpayers filing joint, head of household or qualifying widow(er)) to be taxed at local rates higher than 50%. All taxable income over those amounts is limited to a 50% local tax rate.

For tax year 1998, a separate calculation of the local income tax is required. You must use the worksheets for the local tax in the 1998

Maryland tax booklet to properly compute your local income tax. Then you may use the following 1998 Local Tax Computation worksheet to determine the local tax. Enter the result on line 11.

For tax years 1999 and later, the local tax is calculated by multiplying the taxable net income from line 9 by the local tax rate shown on the following Local Tax Rate Chart. Enter the result on line 11.

PAYMENT INSTRUCTIONS

Make your check or money order payable to "Comptroller of Maryland". Put your social security number, type of tax and year of tax being paid on your check. **DO NOT SEND CASH.**

13 CHANGE OF RESIDENT STATUS. **Be sure to enter a full explanation of the change of resident status in Part III on the back of the amended form.**

If you are changing your resident status from a resident to a nonresident, complete Part III with a full explanation of your reasons for the change. A nonresident of Maryland is subject to tax on income from Maryland sources; that is, wages and salaries from services performed in Maryland, income from business carried on in Maryland, gambling winnings from Maryland sources, income from pass-through entities with Maryland income and gain or loss from the sale of property located in Maryland. Other income (interest, dividends, pensions, salaries or business income from sources outside Maryland, etc.) may be subtracted. Itemized deductions must be allocated according to the Maryland

income factor. For tax years after 1991, exemptions must be prorated according to the Maryland income factor.

If you are amending to show part-year resident status, include dates of residence and indicate the other state of residence in Part III. Subtract all income received during your nonresident period. If you have any losses or adjustments to federal income that do not pertain to the resident period, you must show them as additions. For tax years after 1992, your standard deduction or itemized deductions and exemptions must be prorated according to the Maryland income factor. Be sure to enter the dates of residence in Part III and attach a photocopy of the income tax return filed with

the other state or states of residence.

Maryland Income Factor

You must adjust your standard or itemized deductions and exemptions based on the percentage of your income subject to Maryland tax. Divide your Maryland adjusted gross income (line 5) by your federal adjusted gross income (line 1) to figure the percentage of Maryland income to total income. Use amended amounts if either of these lines were changed. The factor cannot exceed 1 (100%). If the amount on line 1 is zero or a negative amount, your factor is 1 (100%). Another method of allocating itemized deductions may be allowed if you receive written approval prior to the filing of your return.

14 NONRESIDENTS. **Nonresidents who are amending their Maryland income tax returns should indicate in Part III that they are amending Form 505, and should not complete line 11 on Form 502X. Exemptions and deductions must be prorated using the Maryland income factor. See Instruction 13.**

15 NET OPERATING LOSS (NOL). **To claim a deduction for a federal net operating loss on the Maryland return, you must first calculate the net operating loss for federal purposes. A deduction will be allowed on the Maryland return for the amount of the loss actually utilized on the federal return. The amount of loss utilized for federal purposes is generally equal to the federal taxable income (before loss is used) or the federal modified taxable income as calculated for the year of carryback or carryforward.**

For years beginning after December 31, 1988, if claiming a net operating loss carryback or carryforward and the total of addition modifications exceeds the total of subtraction modifications in the year of the loss, a modification to recapture the excess of additions over subtractions is required when claiming the corresponding net operating loss deduction.

Therefore, if, in the year of the net operating loss, total addition modifications exceed total subtraction modifications, enter as an Addition to Income the smaller of:

- Net operating loss deduction attributable to the loss year (tax year in which net operating loss occurred)

or

- The net addition modification in the loss year plus the cumulative net operating loss deductions claimed for current and prior years attributable to the loss year, less the total net operating loss in the loss year.

For further instruction and examples, you

may request Administrative Release No. 18.

You must attach copies of federal Form 1045 or 1040X, whichever was used for federal purposes, and a copy of the federal income tax return for the year of the loss. Also include Schedules A and B of Form 1045 or the equivalent worksheets used to develop the federal NOL and show the amounts utilized on the federal return in the carryback or carryforward years. Check the box on the front of Form 502X located directly below the name and address.
