4. earns 150% or more of the federal minimum wage; and
5. were hired by the business after the later of the date on which the enterprise zone was designated or the date on which the business entity located in the enterprise zone.

In addition, an employee may not have been hired to replace an individual employed by the business in that or the three previous tax years except an economically disadvantaged employee hired to replace a previously qualified economically disadvantaged employee, for whom the business received the corresponding first- or second-year credit in the immediately preceding tax year.

PART B - EMPLOYMENT OPPORTUNITY TAX CREDIT

General Requirements. Businesses that employ persons receiving "Aid to Families with Dependent Children" (AFDC) may be eligible for tax credits based upon wages paid to qualified employees and child care and transportation expenses paid on behalf of qualified employees.

Qualifying employees are those who are residents of Maryland and who, immediately before going to work for the business, were Maryland residents and recipients of state benefits from the AFDC Program. Qualified employment opportunity employees are those who are certified as such by the Maryland Department of Labor, Licensing and Regulation, Division of Employment and Training, 1100 N. In addition, an employee may not have been hired to replace a laid-off employee or to replace an employee who is on strike or for whom the business simultaneously receives federal or state employment training benefits.

A business must also notify the Maryland Department of Business and Economic Development that the qualified employment opportunity employee has been hired.

For further information on qualified individuals and the requirements businesses must meet to qualify, contact the Maryland Department of Labor, Licensing and Regulation, Division of Employment and Training, 1100 N. Eutaw Street, Baltimore, MD 21201 (410-767-2047).

Specific Requirements

Part B-I Credit for Employment Opportunity Employees (hired on or after June 1, 1998). A credit is allowed for each new AFDC recipient employee for a two-year period beginning with the year the employee was qualified. The credit for each AFDC recipient hired shall be equal to 30% of the first \$6,000 of qualified wages for the first year of employment and 20% of the first \$6,000 of qualified wages for the second year of employment. A special one-year credit may be taken for 40% of the first \$10,000 of wages paid to an employment opportunity employee if:

1. the employee has been a recipient of temporary assistance under the AFDC program for at least 18 of the last 48 months (whether consecutive or not); and

2. has been employed for a full year by the employer claiming the credit.

The same employee may not be used to qualify for both the two-year and special one-year credits.

The employer is not entitled to claim the credit until employment has continued for at least one full year unless the employee (a) voluntarily leaves the employer, (b) becomes disabled or death occurs or (c) is terminated for cause. The credit must be prorated for the portion of the year the employee worked unless the employee voluntarily left to take another job.

Part B-II Credit for Child Care and Transportation Expenses (for employees hired on or after June 1, 1998). A credit is allowed for the child care expenses incurred by the employer for the children of qualified employees. If the employer provides or pays for approved day care services for a child or children of the employee, or pays for transportation expenses that are incurred to enable a qualified employee with a disability to travel to and from work, the employer shall be eligible for an additional credit of up to \$600 for the first year of employment and up to \$500 for the second year. To verify if a child care center qualifies as an approved provider, contact the Department of Human Resources, Child Care Administrator for the county or city in which the child care center is located.

Part B-Summary. Add lines 5 and 9.

Whenever an Employment Opportunity Tax Credit is claimed against the income tax, an addition modification must be made in the tax year for which the wages or child care expenses claimed as a credit were paid.

Businesses who employ persons with disabilities, as determined by the Division of Rehabilitation Services (DORS) in the Maryland State Department of Education and/or by the Maryland Department of Labor, Licensing and Regulation (DLLR) may be eligible for tax credits for wages paid to, and for child care expenses and transportation expenses paid on behalf of, qualified employees.

Qualifying employees with a disability are those who are certified as such by the DORS (or by the DLLR for a disabled veteran).

For certification or for additional information, please contact the Division of Rehabilitation Services, 2301 Argonne Drive, Baltimore, MD 21218 (1-888-554-0334, or dors@msde.state.md.us by e-mail) or the Department of Labor, Licensing and Regulation at 410-767-2047 or ghee@careernet.state.md.us by e-mail.

A "Qualified Employee" with a disability means an individual who:

This credit may not be claimed if the Employment Opportunity Tax Credit has been claimed for that Employee. In addition, an employee must not have been hired to replace a laid-off employee or to re-

place an employee who is on strike or for whom the business simultaneously receives federal or state employment training benefits.

Qualifying child care expenses are those expenses incurred by a business to enable a qualified employee with a disability to be gainfully employed.

The credit for each disabled employee hired shall be equal to and may not exceed 30% of the first \$6,000 of qualified first year wages and 20% of the first \$6,000 of qualified second year wages.

The employer is not entitled to claim the credit until employment has continued for at least one full year unless the employee (a) voluntarily leaves the employer, (b) becomes further disabled or death occurs or (c) is terminated for cause. The credit must be prorated for the portion of the year the employee worked unless the employee voluntarily left to take another job.

Part C-II Credit for Child Care and Transportation Expenses. An additional credit is allowed for expenses incurred by the employer for approved day care services for a child or children of a qualified employee, or pays for transportation expenses that are incurred to enable a qualified employee to travel to and from work. A credit of up to \$600 is allowed for the first year of employment and up to \$500 for the second year. To verify if a child care center qualifies as an approved provider, contact the Department of Human Resources, Child Care Administrator for the county or city in which the child care center is located.

Part C-Summary. Add lines 3 and 6.

Whenever this credit is claimed against the income tax, an addition modification must be made in the taxable year for which the wages, child care or transportation expenses claimed as a credit were paid.

A credit will be allowed only for employees hired before July 1, 2003.

No credits may be earned for any tax year beginning on or after January 1, 2006.

General Requirements. Certain businesses that create new qualified positions in Maryland may be eligible for tax credits based on the number of qualified positions created or wages paid for these qualified positions.

The business facility must be certified as having created at least 60 qualified positions or at least 30 high-paying qualified positions or 25 qualified positions if the business facility established or expanded is in a State Priority Funding Area.

A qualified position is a full-time position which pays at least 150% of the federal minimum wage, is located in Maryland, is newly created as a result of the establishment or expansion of a business facility in a single location in the state and is filled. Qualified business entities are those that are certified as such by the Maryland Department of Business and Economic Development. A qualified employee is an employee filling a qualified position.

This credit has a provision for recapture if the entity does not maintain the number of qualified positions upon which the credit was based.

For certification or for information on the standards that businesses must meet to qualify, contact the Maryland Department of Business and Economic Development, Division of Business Development, Tax Incentives Group, 217 E. Redwood Street, Baltimore, MD 21202 (410-767-4980).

Part D-II Credit for employees working in a facility located in a revitalization area. A credit is allowed for each newly-created qualified filled position located in a revitalization area. In order to qualify for the credit for project costs, a minimum of \$500,000 must be spent on eligible project costs. As part of the expansion or relocation, at least 25 newly-hired qualified employees must be employed for at least one year. This credit may also be claimed by tax-exempt, non-profit organizations.

Redwood Street, Baltimore, MD 21202 (410-767-4980).

Specific Requirements

Part Q - I Credit for project costs. A credit is allowed for 100% of the cumulative qualified project costs (less credits taken in the prior years), not to exceed the state tax liability on income from the project for the current tax year or \$5,000,000, whichever is less. For procedures in calculating the state tax liability for the project, contact the Department of Business and Economic Development (410-767-4980).

A carryover is allowed for the excess of the credit over the state income tax liability on the income from the project for up to 14 years following the year in which the project was placed in service.

At any time after the 4th tax year* following the tax year after the project was placed in service, but before the expiration of the 15th tax year after the project was placed in service, the business may apply the excess to the entity's total state income tax liability and may request a refund of any excess credit. The total of the refund and all credits previously claimed may not exceed the employer withholding taxes for qualified employees for the current tax year.

Part Q - II Credit for start-up costs. A credit is allowed for 100% of the cumulative qualified start-up costs (less credits taken in prior years), limited to \$10,000 times the number of qualified employees or \$500,000, whichever is less.

A carryover is allowed against the entity's state income tax liability for up to 14 years following the year in which the project was placed in service.

At any time after the 4th tax year* following the tax year after the project was placed in service, but before the expiration of the 15th tax year after the project was placed in service, the business may apply the excess to the entity's total state income tax liability and may request a refund of any excess credit. The total amount claimed as a refund may not exceed the employer withholding taxes for the qualified employees for the current tax year.

*For either credit, if the majority of the qualified positions are paid at least 250% of the federal minimum wage, the years during which the business may apply the excess to the entity's total state income tax liability and request a refund of any excess credit will begin at the 2nd year rather than the 4th year.

Tax exempt organizations that are eligible for the One-Maryland Economic Development Tax Credit must file a corporation income tax return in order to claim the credit and related refunds and are subject to the same time limitations as other corporations.

NOTE: A copy of the certification from the Department of Business and Economic Development must be included with Form 500CR.
