General Instructions

Purpose of Form

The 2010 Form 502S is used to calculate allowable tax credits for the rehabilitation of certified rehabilitation structures completed in the tax year which begins during the period of January 1, 2010 through December 31, 2010. Form 502S only applies to applications received by Maryland Historical Trust on or after June 1, 2010. For applications received by Maryland Historical Trust before June 1, 2010, use Form 502H.

Certified Expenditures

Substantial rehabilitation expenditures incurred over a 24-month period must be certified by the Maryland Historical Trust (MHT). Substantial expenditures are those exceeding \$5,000 for single-family owner-occupied residential property. For qualified rehabilitative structures located in a Main Street Maryland Community, substantial expenditures are the greater of 50% of the adjusted basis of the structure or \$25,000. For all other property, substantial expenditures are the greater of the adjusted basis of the structure or \$25,000. The same expenditures may not be used to qualify for a credit in any other tax year or in more than one Part of Section 1.

Allowable Credit

A credit against state income tax for a percentage of the amount spent to rehabilitate a certified rehabilitation structure is provided for all tax years beginning after June 1, 2010. Credit for rehabilitation may be refunded if the credit exceeds the State tax liability and the structure is located in Maryland.

Subject to MHT approval for postponement, commercial rehabilitation must be completed within 30 months from the date of issuance of the initial certificate.

Specific Instructions

Section 1

Part A – use Part A only if the rehabilitation involves a certified historic structure and the application was submitted to the MHT on or after June 1, 2010.

Part B – use Part B only if the rehabilitation involves a historic structure that is also a high performance building and the application was submitted to the MHT on or after June 1, 2010.

Part C – use Part C only if the rehabilitation involves a qualified rehabilitation structure and the application was submitted to the MHT on or after June 1, 2010.

Note: If there is more than one property for which a credit is being claimed in any Part (A, B, or C), attach a schedule that includes the same information provided in Section 1 of this form for each property. The total of the amounts in Column 4 for all properties will be entered on line 1 of Section 2.

Column 1 (Parts A, B, and C) – Enter the MHT project number and location of each property as shown on the Certification Application (Part 3).

Column 2 (Parts A, B, and C) – Enter the amount of certified expenditures for the property listed in Column 1.

Column 3 (Parts A, B, and C) – Multiply the expenditure shown in Column 2 by the applicable percentage, and enter the result.

Column 4 (Parts A, B, and C) – For each property, enter the amount from Column 3 or the applicable maximum credit (\$3,000,000 for commercial, \$50,000 for non-commercial), whichever is less.

Section 2

Current Year Credit/Recapture

Line 1 – Enter the total of the amounts in Column 4, Parts A, B, and C less the amount of any recaptures (see below). Also enter this amount on the appropriate line of the income tax form being filed: line 2, part H of Form 502CR (Forms 502 or 505); line 41 of Form 504; or line 10e of Form 500. If negative, enter the negative amount.

Note: If credit is allowed for multiple properties in any one part (A, B, or C), the amount entered on line 1 should be the total of Column 4 for all rehabilitated properties.

Recaptures

For non-commercial rehabilitations, if within the first 5 years (starting with the first year the credit was claimed), work was performed that would disqualify any certification issued on or after June 1, 2010 for a certified rehabilitation for which a credit was claimed, a portion of the credit must be recaptured. For commercial rehabilitations, if within the first 5 years (starting with the first year the credit was claimed), work was performed that would disqualify any certification issued on or after June 1, 2010 or the certified rehabilitation is disposed of, a portion of the credit is subject to recapture. A recapture must be made on the tax return for the tax year in which the disqualifying work or the disposal of a certified rehabilitation is done.

For non-commercial and commercial rehabilitations, the recapture is calculated as follows. In the first year, 100% of the credit must be recaptured, 80% in the 2nd, 60% in the 3rd, 40% in the 4th, and 20% in the 5th. No recapture is required for disqualifying work performed after the first 5 years or disposal after the first 5 years. Line 1 of Section 2 must be reduced by the amount of the recapture; if the result is negative, enter the negative amount.

Attachment of Forms

Attach your completed Form 502S along with a copy of the approved Certification Application (Part 3) to the income tax return. Failure to do so will result in the credit being disallowed.
