### WORKSHEET INSTRUCTIONS

**Line A** - Enter amount from Form 510, line 2 (adjusted, in the case of a PTE using the accrual method of accounting to report federal taxable income, to reflect the amount of taxable income that would have been reported under the cash method of accounting).

**Line B** - Enter any cash receipts received by the PTE that were not included in gross income including capital contributions and loan proceeds.

**Line C** - Enter the allowable depreciation, amortization and/or depletion used as a deduction from federal taxable income.

**Line D** - If the PTE has established a liability reserve, enter the amount that represents the decrease, if any, in this reserve account. Liability reserve means accrued unpaid liabilities that are not deductible in computing taxable income.

**Line E** - Add lines A through D and enter total.

**Line F** - Enter any cash expenditures that are not deducted when computing taxable income for the PTE. Items such as distributions to members are not included in this amount.

**Line G** - If the PTE has established a liability reserve, enter the amount that represents the increase, if any, in this reserve account. Liability reserve means accrued unpaid liabilities that are not deductible in computing taxable income.

**Line H** - Add lines F and G and subtract the total from line E. This is the total distributable cash flow for the year.

**Line I** - Enter the sum of the percentages from Form 510, lines 5 and 10.

**Line J** - Multiply line H by line I. This is the portion of distributable cash flow for nonresident members.

**Line K** - Enter all nonresident estimated tax paid with Forms 510D, 510DP or 510E.

**Line L** - Subtract line K from line J. This is the distributable cash flow limitation for the PTE. If this amount is less than 0, enter 0.
